

OBJECTIVE: Analyze Netflix's catalog to identify trends in content type, ratings, countries, and release history

- Key Insights:
- 1. Movies account for 70% of the catalog.
 - 2. The United States has the largest content library.
 - 3. Most titles were released after 2015.
 - 4. TV-MA is the most common rating.
 - 5. Director information is missing for over 2600 titles.

total_titles	total_movies	total_tv_shows	total_countries	total_directors
